Warning Notice

The Issuer draws the attention of the investors to the fact that the Certificates are specialised financial instruments designed for investors familiar with this type of instrument and, consequently the investors should have sufficient knowledge and experience of financial and business matters to evaluate the merits and risks of investing in a particular Certificate as well as access to, and knowledge of, appropriate analytical tools to assess such merits and risks in the context of their financial situation. Certain Certificates are not an appropriate investment for investors who are unsophisticated with respect to applicable funds, interest rates, currencies, other indices or formulas, or redemption or other rights or options. Investors should have sufficient financial resources to bear the risks of an investment in the Certificates. For a more detailed description of the risks associated with an investment in the Certificates, investors should read the section of the Base Prospectus entitled ‘Risk Factors’. Moreover, because of the nature of these instruments, the value of the Certificates could fluctuate significantly and result, under certain circumstances, in the partial or total loss of the initial investment.

PART A –CONTRACTUAL TERMS

Unless otherwise required by the context, the terms and expressions used and not expressly defined in these Final Terms shall have the same meaning as in the Securities Conditions set forth in the Base Prospectus dated 4th December 2009 as supplemented by the First Supplement dated 5th February 2010.

The Base Prospectus and the Supplement constitute together a base prospectus for the purposes of the Prospectus Directive and the relevant implementing measures in Luxembourg. The present document constitutes the Final Terms of the Certificates described herein for the purpose of article 5.4 of the Prospectus Directive and the relevant implementing measures in Luxembourg.

The Final Terms must be read in conjunction with the Base Prospectus, as supplemented. Full information on the Issuer, the Guarantor and the offer of the Certificates is only available on the basis of the combination of these Final Terms and the Base Prospectus, as supplemented.

The Base Prospectus, the Supplement and these Final Terms are available on the website of Exane (www.exane.com). The Base Prospectus, the Supplement and the Final Terms are also available for consultation and copies may be obtained at the registered office of the Issuer, of Principal Paying Agent, of the Luxembourg Paying Agent and on the website of the Luxembourg Stock Exchange (www.bourse.lu).

10. Tax Treatment in Germany

❖ Certificates held as private asset

Taxation of Interest Income

Under German tax law, payment of interest on the Certificates to person who are tax residents of Germany (including persons whose residence, habitual abode, statutory seat or place of management is located in Germany, a “German Holder”) and who held the Note as a private asset is subject to German income tax as capital income in the meaning of § 20 German Tax Income. From year 2009, a final taxation (*Abgeltungssteuer*) is charged on capital income at an amount of 25% plus 5.5% solidarity surcharge (*Solidaritätszuschlag*) thereon, resulting in a total final taxation of 26.375%. Taxable base is the received interest without any deduction of expenses actually incurred. The total capital income of the individual will be deducted by a personal annual exemption (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,601 for married couples filing their tax return jointly).

The personal income tax liability regarding the capital income is, in principle, settled by the tax withheld. If no withholding tax was charged on the payment of the interest, the German Holder will have to include this interest income in its tax return. The final taxation will then be charged by way of assessment. The German Holder may also apply for assessment of the capital income based on the general rules if the personal income tax rate of the German Holder is lower than the final taxation rate. In such assessment, the withholding tax will be credited.

Withholding Tax on Interest Income

If the Notes are held in a custodial account maintained by a German Holder with a German branch of a German or foreign bank or financial institution (a “**German Disbursing Agent**”), which pays or credits the interest, a 25% withholding tax (*Kapitalertragsteuer*) on interest payments, plus a 5.5% solidarity surcharge (*Solidaritätszuschlag*) thereon, will be levied, resulting in a total withholding tax charge of 26.375% on the gross amount of interest paid. Accrued interest paid by German Holder upon the purchase of the Certificates may be set-off against the amount of interest income received by such German Holder and, under certain circumstances, may reduce the amount subject to withholding tax.

If the Holder of a Certificate is an individual to whom income from the Certificates constitutes income from a capital investment and such Certificate Holder has filed a certificate of exemption (*Freistellungsauftrag*) with the German Disbursing Agent, no tax will be withheld by the German Disbursing Agent to the extent that the interest income derived from the Certificates together with other investment administered by the German Disbursing Agent does not exceed the maximum exemption amount shown on this certificate. Similarly, no tax will be withheld if the Certificate Holder submits to the German Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent local tax office.

Disposal or Redemption of the Notes

Capital gains resulting from the disposal or redemption of Notes (or, as the case may be, from the payment at maturity if the Certificates) realised by individual German Holders holding the Certificates as private assets are taxable as capital gains. They are also subject to the final taxation (*Abgeltungssteuer*) at an amount of 25% plus 5.5% solidarity surcharge (*Solidaritätszuschlag*) thereon, resulting in a total final taxation of 26.375%.

Base for this taxation is the capital gain, which is in general the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. The taxable capital gains from the Certificates issued in a currency other than Euro also include any currency gains (and losses). In case of a physical settlement of certain Certificates which grant the Issuer or the individual Certificate Holder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment in cash, generally no taxable gain may result, because the acquisition costs of the

Certificates are regarded as acquisition costs of the underlying securities received by the individual Certificate Holder upon physical settlement. Therefore, only losses can arise from the deduction of directly related expenses.

Capital losses in respect of the Certificates held as a private asset may only be set-off against capital income within the same financial year and in subsequent years. However, if losses result from Certificates held in a custodian account maintained by a German Disbursing Agent, initially the German Disbursing Agent will take these losses into account when calculating the withholding tax. In case that the losses cannot be compensated in the current year, the losses will be set off against the income of the subsequent year. Upon request of the German Holders the German Disbursing Agent will provide a certificate of all losses, which could not be set off during the current year within the custodial account. This certificate enables the German Holder to claim a deduction within the assessment of capital income.

Withholding tax on disposal or redemption of the Certificates

Like the treatment of interest income a withholding tax at an amount of 25% plus a 5.5% solidarity surcharge (*Solidaritätszuschlag*) thereon (in total 26.375%) will be levied on capital gains from disposal or redemption of the Certificates, if the Certificate is held in a custodial account maintained by a German Disbursing Agent. A withholding tax will not be charged if a German Holder has provided a certificate of exemption (*Freistellungsauftrag*) or a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) to the German Disbursing Agent.

Base to this taxation is again the difference between the proceeds from the disposal or redemption after the deduction of expenses directly related to the disposal and the cost of acquisition. However, in the case the Certificates have not been kept in a custodial account with the same German Disbursing Agent since the time of acquisition, upon the disposal, redemption or repayment withholding applies to 30% of the disposal proceeds, unless the current Disbursing Agent has been notified of the actual acquisition costs of the Certificates by the previous Disbursing Agent or by a statement of a bank or financial services institution within the European Economic Area or certain other countries in accordance with art. 17 para. 2 of the EC Council Directive 2003/48/EC. Furthermore, the special provision for a physical settlement of certain Certificates applies for the purposes of the withholding. Therefore, in principle, redemption accompanied by physical settlement may not result in a withholding tax.

Certificates held as business assets of by a corporate body

If the Certificates are held as business assets or by a corporate body all income received from the Certificates (interest as well as capital gains) is subject to German income tax or German corporate income tax. The income from the Certificates will be taxed by the German Certificate Holder individual tax rate. The income tax or the corporate income tax is not settled by the tax withheld. Withholding tax and the solidarity surcharge thereon might be credited as prepayments against the German Holder's final tax liability for German personal or income tax purposes and the respective solidarity surcharge or, if in excess of such final tax liability, refunded upon application.

If the Certificates are held in a German business establishment for trade purposes, interest income derived from the Certificates will also be subject to trade tax on income, which is a municipal tax levied at an effective tax rate of currently 12% to 20% depending on the trade tax factor applied by the relevant municipality.

The taxation of the investment in the Certificates might be calculated on an accruals basis. The income might therefore be taxed before the German Holder receives a payment from the Certificates.

In general, withholding tax will be deducted in accordance to the same provisions like the withholding with respect to the Certificates held as private assets. Generally, the withholding tax on capital gains will not apply under certain circumstances if the Certificates are held by a tax resident corporate. That also applies to Certificates held by an individual or by a partnership as part of the business assets as far as the German Holder provides the German Disbursing Agent with a certificate of the character of the Certificates as business assets.

❖ **German Tax Non-Residents**

Income derived from the Certificates by persons who are not tax residents of Germany (“**Non-German Holders**”) is in general exempt from German income or corporate income taxation, and no withholding tax shall be withheld (even if the Certificates are held by a German Disbursing Agent), provided (i) the Certificates are not held as business assets of a German permanent establishment of the Non-German Holder, including a permanent representative, or fixed base of the Certificate Holder, (ii) the income derived from the Certificates does not otherwise constitute German source of income (such as income from the letting and leasing of certain German situs property), (iii) the Certificates or coupons are not presented for payment at the offices of a German branch of a German or foreign bank or financial services institution, that do not hold in custody or manages the Certificates, in an over-the-counter-transaction (*Tafelgeschäft*) by a person who is not a foreign bank or a financial services institution and, (iv) in the event that the Certificates are held in a custodial account maintained

by a German Disbursing Agent, the Certificate Holder complies with the applicable procedural rules under German law and provides evidence of the fact that the Certificates are not subject to taxation in Germany. Unjustified retained withholding tax shall be refunded upon request to the Local Tax Office (*Finanzamt*) to whom the withholding tax was paid.

If the interest is subject to German taxation (for example, if the Certificates are held as business assets of a German permanent establishment of a Non-German Holder), such holder is subject to a tax treatment similar to that described above under the caption "German Tax Residents". The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

11. Holder's representations

By purchasing the Certificates, each Holder represents:

- (a) it has sufficient knowledge and experience and has taken such professional advice and has independently obtained such information as it thinks necessary to make its own evaluation of the merits and risks involved in purchasing the Certificates and in making an investment of this type;
- (b) it understands that the Optional Settlement Amount at the Issuer's discretion and the Optional Settlement Amount at the Holder's discretion will be dependent upon the performance of the Underlying Asset(s) (as defined in Part B), which contains substantial credit and interest rate risks;
- (c) it understands and agrees that the Issue Price may include an amount related to hedging arrangements entered into by the Issuer and a member of its group and the Certificates may be re-sold in the future at prices which may be greater or less than such price;
- (d) it understands that since the entity acting as Calculation Agent is the Guarantor, potential conflicts of interest may exist between the Guarantor in its capacity as the Calculation Agent, on the one hand, and the Holders on the other; and
- (e) it acknowledges that, in acting hereunder, the Calculation Agent is acting as agent of the Issuer and such entity shall not thereby assume any obligations towards or relationship of agency or trust for or with the Holders.

ADDITIONAL ADJUSTMENT EVENTS

1. Modification to the Principles of adjustments applicable to the Certificates

The Condition 5(F)(1) is cancelled and replaced as follows:

“If certain events defined below affecting an Underlying Asset (an “**Event**”) occur, the Calculation Agent may, as regards Certificates whose Effective Date of the Event is simultaneous with or prior to the Valuation Date in the case of Cash Settlement and/or in the case of Physical Settlement, continue to execute its obligations, subject to any adjustments deemed necessary by the Calculation Agent who shall implement, at its own discretion, one of the following methods for the purpose of protecting the rights of the Holders:

- (a) the method implemented by the Related Market (if applicable), or any other competent authority (the “**Related Market Method**”),
- (b) the methods described in paragraphs F(2) *et seq.*, which incorporate the modifications of the Affected Underlying Asset or its Substitution (the “**Calculation Agent Method**”).

In the event where the Calculation Agent determines that the Related Market Method or the Calculation Agent Method is technically impossible to implement or inappropriate, it may proceed to any other adjustment that it deems necessary. So far as non-French Underlying Assets are concerned, the methods described in paragraphs F(2) *et seq.* may equally be modified to be compliant with local business practices and/or local regulations.

Conversely, the Issuer may decide to terminate its obligations by providing notice in accordance with Condition 5(F)(9) and (i) in the case where the Event occurs before the sixth anniversary of the Issue Date, the Issuer shall pay seven calendar months after the sixth anniversary of the Issue Date an amount in Euro based on the fair market value of the Certificates as determined by the Calculation Agent; or (ii) in the case where the Event occurs after the sixth anniversary of the Issue Date, the Issuer shall pay on calendar month after the Effective Date an amount in Euro based on the fair market value of the Certificates as determined by the Calculation Agent (the “**Redemption Method**”).

Moreover, the Calculation Agent may also decide to proceed to any adjustment it deems necessary in accordance with the methods described above, in the event where a Market Disruption Event occurs and is continuing after five consecutive Trading Days or five consecutive Business Days, as the case may be. Conversely, the Issuer may decide to terminate its obligations.

Any adjustment made by the Calculation Agent will take effect for all valuation dates occurring after the Event.”

2. Modification to the Methods for executing certain adjustments in a Fund

- ***For the purpose of this issue, Condition 5(F)(4)(xviii) ‘Non compliance with side letters’ is cancelled and replaced as follows:***

“(xviii) *Non compliance with side letters*

The Calculation Agent may proceed with the Substitution of the relevant Unit, in the event where the Asset Manager, the Custodian or the Fund Service Provider does not execute or is in breach with its binding obligations set out in any side letter pertaining to the management of the Fund or in any agreement, including but not limited to, liquidity or rebate agreements, in connection with the Fund.”

- ***For the purpose of this issue, a Condition 5(F)(4)(xxi) is added:***

“(xxi) *Due Diligence*

The Calculation Agent may proceed with the Substitution of the relevant Unit, in the event where the outcome of a due diligence performed by or for the benefit of Exane Derivatives is deemed negative in the sole discretion of the Calculation Agent.”

- ***For the purpose of this issue, a Condition 5(F)(4)(xxii) is added:***

“(xxii) *Tax treatment*

The Calculation Agent may proceed with the Substitution of the relevant Unit, should any event lead or may lead to a re-characterisation of the tax treatment of the Certificates in the hand of the Holders.”
